ANUJ KUMAR (Software Engineer)

anujku10mar@gmail.com | 9646594461 | linkedin.com/in/anuj-kumar10 | github.com/anujkumar1000

SUMMARY

Analytical and solutions-driven Full Stack developer with extensive experience leading complex, large-scale technical projects across software, database, and network development. Highly skilled in risk assessment, problem-solving, and effectively translating innovative ideas into practical, scalable, and impactful technology solutions.

SKILLS

Language & Coding: Java, OOPS, C++, Springboot, Groovy, Functional Programming, Reactive Programming
Development: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, WebSocket, Clerk, Node.js, Gradle, Redis
Others: SQL, AWS, Excel, Postman, Docker, Jenkins, Kubernets, AI tools, Argo, Jira, Git, Github, Grafana

EXPERIENCE

Software Engineer, Leadsquared   *Mar 2024 - Sep 2024*
- Developed and optimized backend services using **Spring Boot and Java**, ensuring high-performance, scalable solutions for data processing and system integration. Enhanced system reliability and streamlined backend workflows.
- Implemented dynamic frontend features using **React and JavaScript**, improving user interactions and enhancing overall performance. Focused on delivering a responsive and seamless experience for end-users.

IT Manager, VD   *Jan 2022 - Jul 2022*
- Directed technical operations, gaining comprehensive experience in technology management and problem-solving within a startup setting.
- Developed a deep understanding of startup workflows and the integration of technology with business strategies.

PROJECTS

REALTIME CHAT APPLICATION

Overview:
- Developed and implemented a scalable real-time chat application using **Socket.io** resulting in a 50% increase in user engagement and communication efficiency, and hosted on Render with a live link.
- Used **Node.js** and **JavaScript** for server-side development, managing WebSocket connections for multiple chat rooms and user authentication.

EMPLOYEE MANAGEMENT SYSTEM

Overview:
- Employed **Spring Boot** to accelerate development and deployment, utilizing auto-configuration and embedded server features for a streamlined backend.
- Created **RESTful APIs** for frontend-backend communication using Spring Boot, **Reactive Programming**, and **Groovy** for seamless data exchange

JOB PORTAL APPLICATION

Overview:
- Developed and implemented a scalable job portal application using **React** and **Tailwind CSS**, optimizing performance and user interface design. Deployed the application on Vercel with a live link, enhancing user engagement and reducing the bounce rate.
- Integrated **Cloudinary** for efficient image management and **Supabase** for backend services, leveraging **JavaScript** to enhance data storage, optimize media handling, and improve overall application performance.

EDUCATION

Bachelor of Engineering, Computer Science   *Oct 2020 - Jun 2024*
Chitkara University   GPA: 9.65 /10.00
Class 12,   *Apr 2019 - Mar 2020*
Kendriya Vidyalaya

Certificates

- Digital Skills Readiness Program Course Completion Certificate | Java FullStack | Wipro (TalentNext)
- Certificate of Completion in AWS for Beginners | Great Learning
- Certificate of Completion in Amazon Services (AWS) | Great Learning
- Certificate of Excellence in Advanced Web Development | Coding Ninjas
